

We create the world in stories.

EdgeWORKS specializes in creating scenarios.

Games

Anime

Audio
Dramas

Comics

Novels

and
More!

EdgeWORKS is a scenario-writing company.

We specialize in creating stories for games, anime, audio dramas, comics, novels and more!

Operation Flow

1.Planing

2.Setting

3.Plotting

4.Flowchart

5.Writing

EdgeWORKS can either create and deliver your entire project for you or we can be hired to create any specific part or parts of your project at any stage in the development of your overall project.

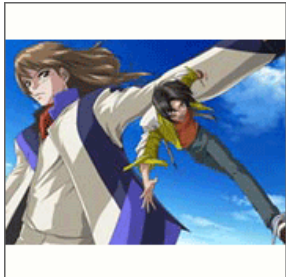

We will make suggestions depending on how we feel we can best contribute to your project.

Therefore, if you give us specifics about your project, we will give you an estimate of what our services would entail and how we could cater it to your specific needs.

Work History

EdgeWORKS has provided stories for many different types of projects.
